Get planks of two different lengths

PATTERNS

A

C

B

Recommendation: Before starting the installation, separate the five different patterns.

T: Tongue 

G: Groove 

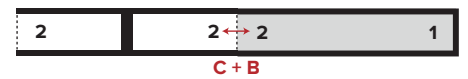

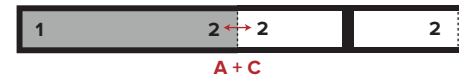

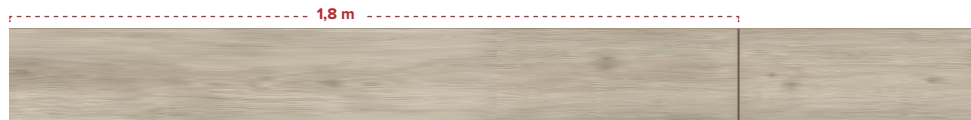

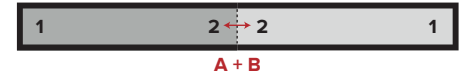

Plank size in this collection is 1200 x 231 x 8 mm.

A combination of numbers is printed on the back side of each plank. 1 must always connect with 1, as well as 2 with 2.

VISUAL EFFECT COMBINING PLANKS

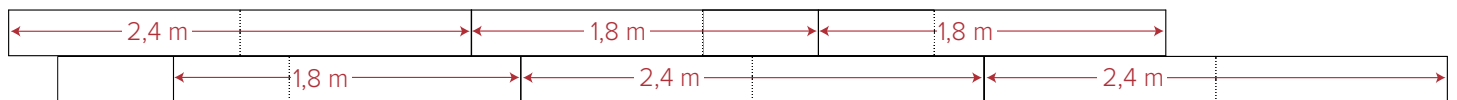

↔ Interplank: Continuity of the design with non-visible joint.

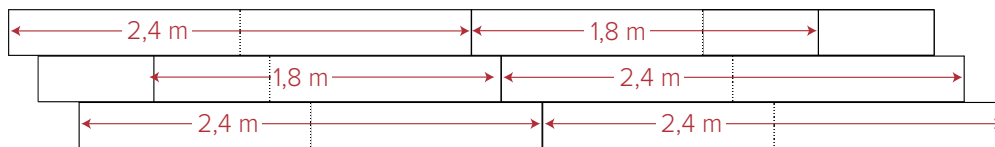

ASSEMBLY

For big areas, it is advisable to use this methodology:

For small areas, it is advisable to use this methodology:

AQUA-0 TECHNOLOGY

FAUS AQUA-0, with its impermeable surface provides water-resistant laminate flooring for up to 72 hours.*

WATER-RESISTANT: Our high-density board is water-repellent treated to ensure that any board expansion is kept minimal and less than <9%.

HERMETIC FIXING: Thanks to our anchored click system, a completely air-tight joint is always achieved.

JOINT-GUARD: With its pressed bevelled edging, floor joints are protected by overlay and decorative paper.

SEALED EDGES: Surfaces are impregnated with paraffin to repel moisture and protect the board.

*In accordance with the warranty conditions specified in : www.faus.international
