Dê vida e personalidade às suas paredes e mobiliário!

O revestimento de parede e mobiliário em dois tons surgiu como uma tendência proeminente no campo do design de interiores. Esta técnica consiste na combinação de duas cores distintas, originando um efeito visual cativante. Este revestimento concede, de uma forma eficaz, personalidade e distinção a qualquer espaço habitacional.

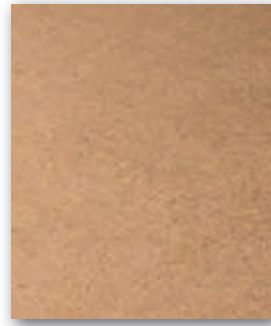

Bring life and personality to your walls and furniture!

Bicolor wall paneling has emerged as a prominent trend in interior design. This technique involves combining two different colors to achieve a captivating visual effect. This wall paneling offers an effective way to infuse personality and distinction into any living space.

INSTALAÇÃO SWALL TEC / SWALL TEC INSTALLATION

Os revestimentos decorativos da marca SWALL destacam-se pela excelente qualidade e facilidade de aplicação.

Abaixo, apresentamos duas imagens que ilustram o processo de instalação.

The decorative wall panels from our SWALL brand stand out for their excellent quality and easy installation.

Below, you will find images that illustrate two options for the installation process:

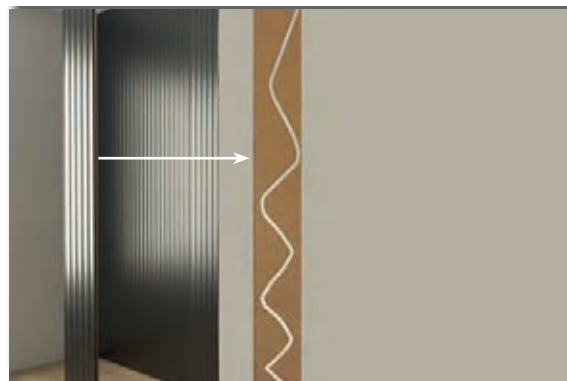

OPÇÃO 1

Coloque a superfície onde o revestimento será instalado. Fixe o revestimento usando pregos ou grampos.

OPTION 1

Place the battens on the wall and secure the wall panels by using nails or staples.

OPÇÃO 2

Cole o verso do revestimento para aderir-lo à parede. Não use silicones ou adesivos com solventes.

OPTION 2

Glue the back of the wall panel to adhere it to the wall. Do not use silicones or solvent-based adhesives.
